Garage Door Tune Up
plus
Roller Replacement

Tune up your Garage Door for your families safety, comfort and convenience. Despite the fact that the Garage door is usually the largest moving object on your home as well as one of the most prominent features of your home it is too often overlooked until something goes wrong. Periodic maintenance will insure that your door will operate as it should. **Our Tune Up special includes tightening all the nuts and bolts, lubricating all moving parts, complete inspection of your Garage Door and Opener, checking your Garage Door Opener Safety Settings, and replacing your existing rollers with premium 13 Bearing Rollers.** When your Garage Door runs smoothly the safety systems can be set for optimum safety, your Garage Door Operator works less and will last longer and it will run **MUCH quieter.** We will show you how to do basic maintenance on your door, assess potential problems and give you any options. Any needed repairs on the Garage Door and Opener are of course extra and will only be done on your approval. **We want the opportunity to SHOW you the kind of service you can expect from The Door Works. We want to be your Garage Door Company.**
